

**DICK COLLINS**  
**“THE LEGEND”**  
**(1933 to 1997)**

A race a month of any distance is more than most people can handle, but Dick Collins averaged *an ultra a month for 12 years*, in addition to the required shorter stuff. He ran his first Western States (WS) in 1979 at the age of 45. He completed the Grand Slam in 1990 (WS in 27:20, Vermont in 22:42, Leadville in 28:15, and Wasatch in 31:03). Not one to rest on his laurels, Collins went out two weeks after Wasatch and ran the Angeles Crest 100 in 28:24. Dick Collins lived in Oakland, California. He was married to Barbara and had five children. Detailed personal and running statistics from a 1991 profile are in the following tables.

<b>Most memorable ultra performance, and why:</b>	(1) Bay Area Ultra Runners 24 Hour Run in 1984, 116 miles - only race where I finished first. (2) Angeles Crest 100 Mile in 1989, 28:21 - felt great for whole race and was done about three hours sooner than expected.
<b>Running advice:</b>	<i>"I think we try to make our sport too complicated. We plan and theorize and organize, and still problems come up that we don't expect. I'm trying to keep it simple. Pay attention to drinking, eating, and the proper clothes, and go out and have fun."</i>
<b>Other comments:</b>	Ultra running is the glue that holds the sport together, foreseeing the need and filling it.
